

Part 1: Questions People Ask Their Architect

&

*Part 2: Questions You **Should** Ask Your Architect*

QUESTIONS PEOPLE ASK THEIR ARCHITECT:

- How involved will you be in the building of my home?
- How can you control cost overruns?
- When and how often will I have the opportunity to give feedback on the design?
- How do you manage budgets and timelines?
- Who will be my main contact following an accepted proposal?
- What experience do you have with sustainable design?
- What do you know about the local design requirements?
- What does it take to become an architect, and what is your experience in the field?
- How often and how will we communicate throughout the project?

QUESTIONS PEOPLE **SHOULD** ASK THEIR ARCHITECT:

- What are the most important things that I need to know?
- How can my house tell my story?
- What inspired you to become an architect?
- How should the landscape, landscaping, and site play into the design?
- If you were the client, what are the top items you would spend your budget on?
- How do you work together as a team?
- What sets your architecture team apart from others?
- In your experience, what are the top mistakes clients make?
- What project are you the most proud of?
- How can you design an award-winning house for me?
- What gets you out of bed and keeps you awake at night?
